

## NON-COVERED SERVICE DISCLAIMER

You are enrolled with an insurance plan with which we are currently contracted and have agreed to reduce our fees for this treatment to those predetermined by your insurance carrier.

At Westport Dental Pc, we are committed to the highest quality of dental care and use only the strongest, most durable materials available as part of our pledge to help you retain your teeth for a lifetime. These quality materials are sometimes more costly than those prescribed by your insurance plan.

Sometimes your insurance company does not cover recommended services, downgrade the payment of service to alternative options, which we may not treat our patients with and are also sometimes not the best alternative, (ex. porcelain vs metal crowns ; amalgam vs compositive restorations), covers only a portion of treatment (less than what they were supposed to pay due to certain plan limitations.)

When these situations arise we do change to our office private fees (not the negotiated insurance fees predetermined by your insurance carrier.)

As always, we are committed to serving you in the most efficient and effective way possible and to meeting all your dental care needs in our comprehensive dental facility. We truly value our patients and want to thank you for your continued confidence in our practice.

I understand and agree to pay the above referenced fees in the case that the above mentioned circumstances arise.
